

# SETTING UP MFA

## Multi-Factor Authentication MOBILE

This extra level of authentication helps protect you from an unknown person trying to access your data.

1.

Upon login to the **Mobile App**, click the **LET'S GET STARTED**.

2.

Fill in your **mobile PHONE NUMBER** and a **NICKNAME**.

3.

Select **mobile device** and verify if text can be received. You can also receive a call.

4.

A 6-digit code will be sent via text/call. Enter unique **verification code** received.

5.

If you prefer a text or phone call, you may choose **SKIP THIS STEP**. If not, authorize the DUO Mobile App.

6.

If you choose text/phone authentication, skip set-up for **Duo Mobile**, by selecting **SKIP DUO MOBILE**.

7.

Congratulations! You have successfully set up multi-factor authentication. Click **COMPLETE SETUP** or add additional devices.
